INSTRUCTIONS FOR HOW TO PLAY:

STEP 1: Get your whole family together for this super fun game!

STEP 2: Ask them to line up in a row, facing the left side of the room.

STEP 3: Ask the first person in line to turn around and pick the first action to be acted out.

STEP 4: The first person turns around and taps the next person in line on the shoulder. The first person has 15 seconds to act out the action using classic charades rules (*no talking or noises permitted*).

STEP 5: The second person watches then taps the third person, who will then turn around and watches as the second person acts out their understanding of what was acted out first.

STEP 6: This process continues until it reaches the last person in line, who must guess what the action is by writing it on a piece of paper so that no noise is made.
